

PERSISTENT
PERFECTION

WHO WE ARE

HOME GATE LIMITED is a brand that specialises in the innovative design, manufacture and distribution of quality stainless steel modular systems.

Our underlying philosophy is based around the principles of persistent perfection.

These fundamentals drive us to provide an unparalleled product and service in the global stainless steel market.

Our company is about people and clients , employees and consultants and enjoying what we do. We believe a mutual preference for success requires **HOME GATE LIMITED** commitment to quality.

Over the years, **HOME GATE LIMITED** has specialized in planning, designing, fabricating, supplying and maintaining commercial food service projects.

From planning to installation, every aspect of commercial kitchen equipment project addressed by **HOME GATE LIMITED**.

Projects completed on time, within budget, and exceeding clients' expectations are a source of pride to us. A philosophy built on professional service and responsibility is the foundation of our commitment to commercial kitchen equipment excellence.

Our quality objectives are to satisfy our clients' needs, and the overall satisfaction of a guaranteed job well done.

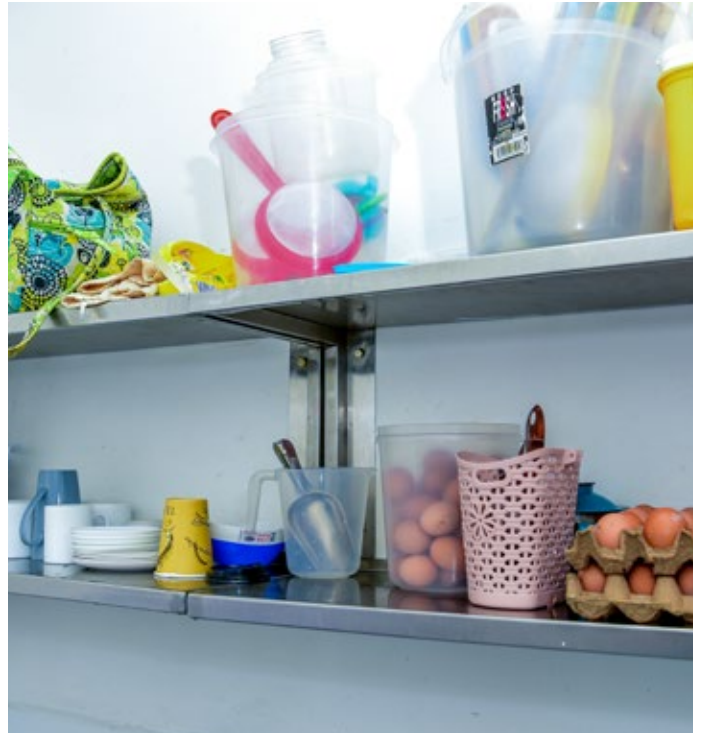

OUR VISION

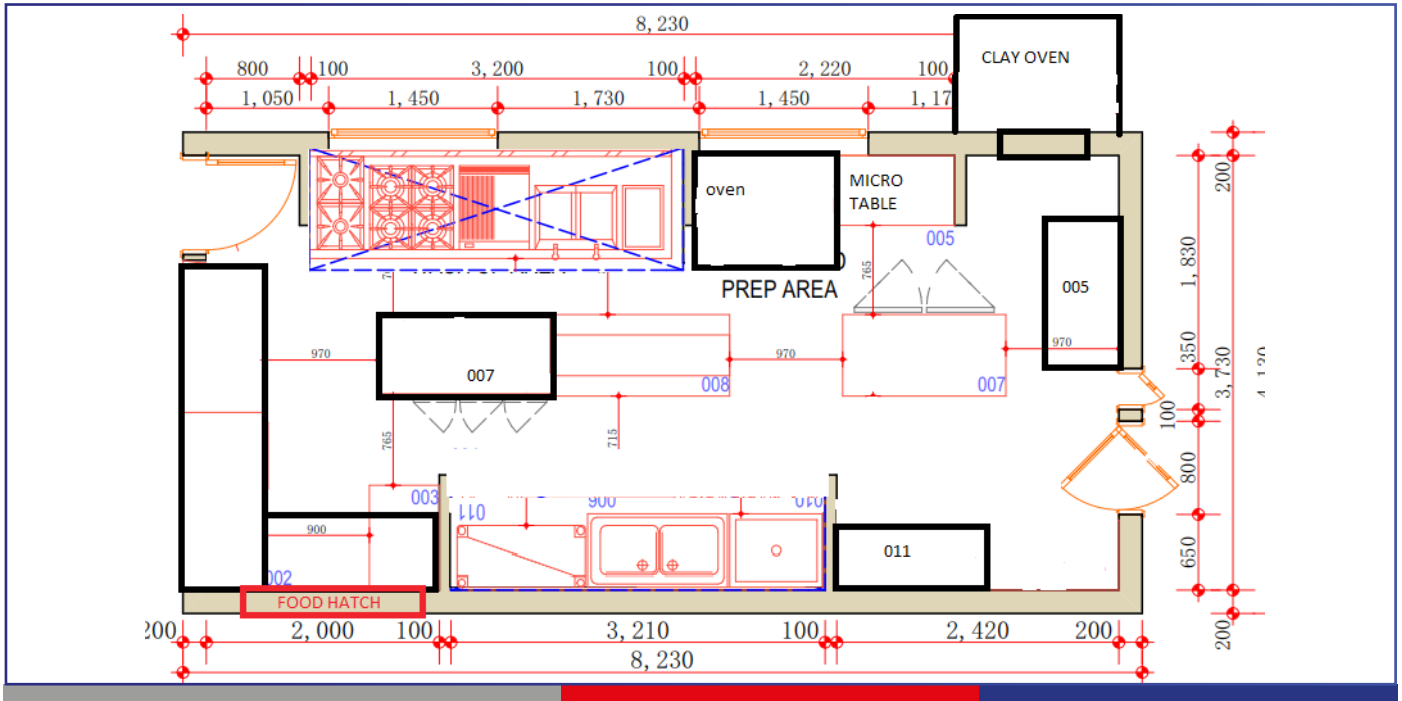

is quite simple

To be a globally recognised brand that is famous for innovative, high quality, competitively priced stainless steel modular products that are:

Simple to buy, Simple to store, Simple to install.

OUR SERVICES

FLOOR PLAN/DESIGN

The number one secret to having a great kitchen is getting the floor plan right. Trust Homegate to create you a working floor design for any type of kitchen that will ensure space is utilized in the most creative manner possible.

SERVERY & DISPLAY

The products we offer not only satisfy the practical elements but also look amazing, all whilst giving extraordinary value for your money.

Our range include: hot pass, counter pass bain marie, cold and hot showcase

HOT KITCHEN

There are numerous cooking ranges for different cooking purposes. Let us design you a cooking station that suits your kitchen needs and manner possible.

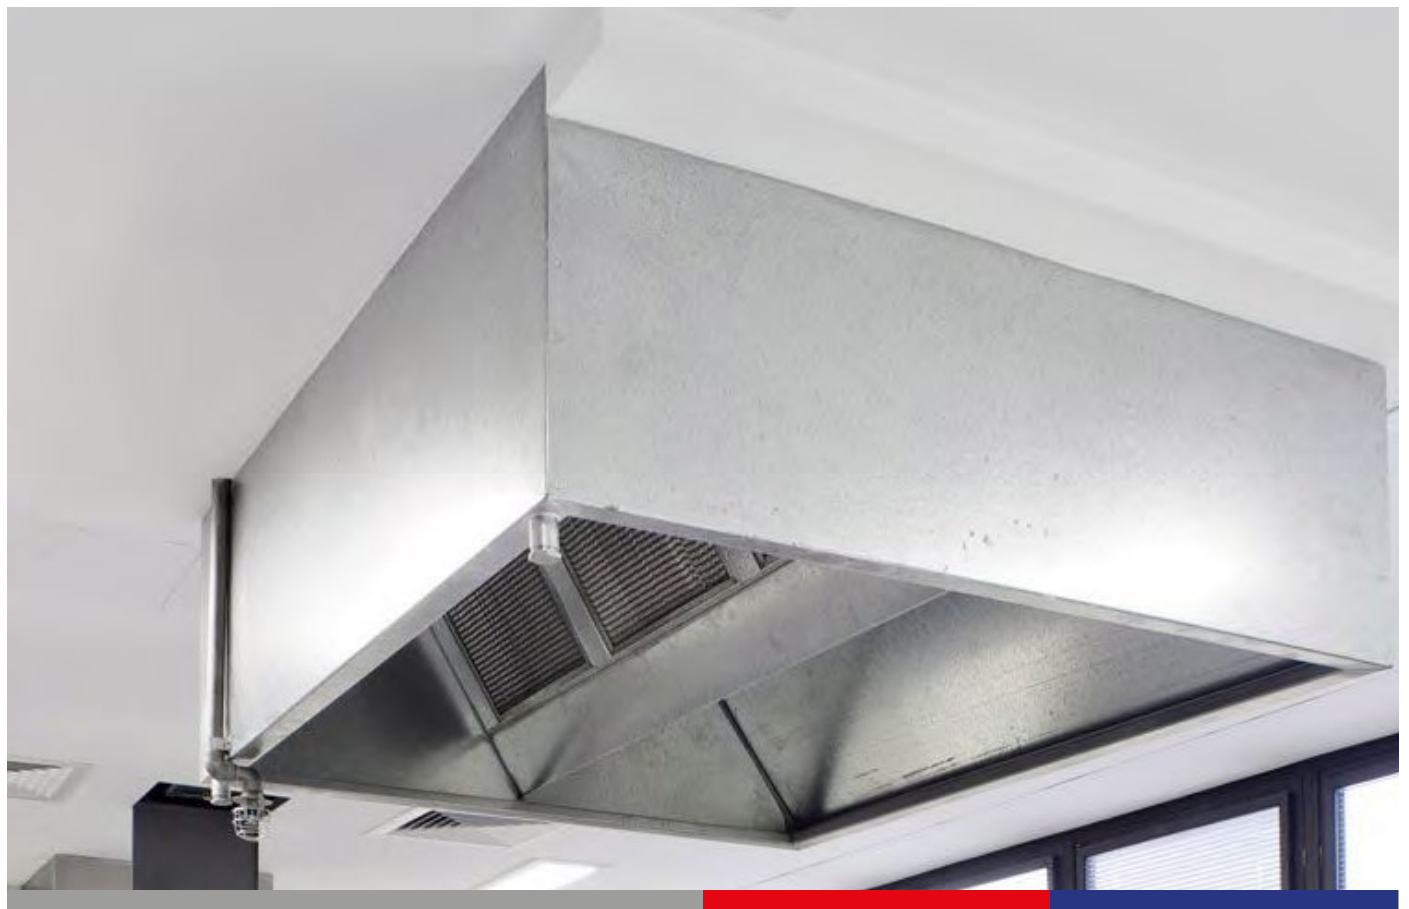

EXTRACTOR HOOD

Cooking Extract kitchen hoods are manufactured from Grade 304 Stainless steel sheet complete with its framework, supports and stiffened by a frame of 38 x 38mm galvanized mild steel R.H.S. The hoods have deep grease drainage channels all round, 20mm diameter drain holes and a plenum box.

Grease filters made of washable type stainless steel filter panels. The units also have removable grease trays and framework made out of stainless steel. The filter s are composed of folded woven metal material interspersed with layers of expanded metal mesh of stainless steel and capable of filtering a total of 9834m³/hr. The filter panels are easily removable for washing as and when necessary as "Vokes" or equal and approved. Our package also comes with High Speed Axial/Centrifugal Fans plus fan sound proofing, hood fire dampers and installation.

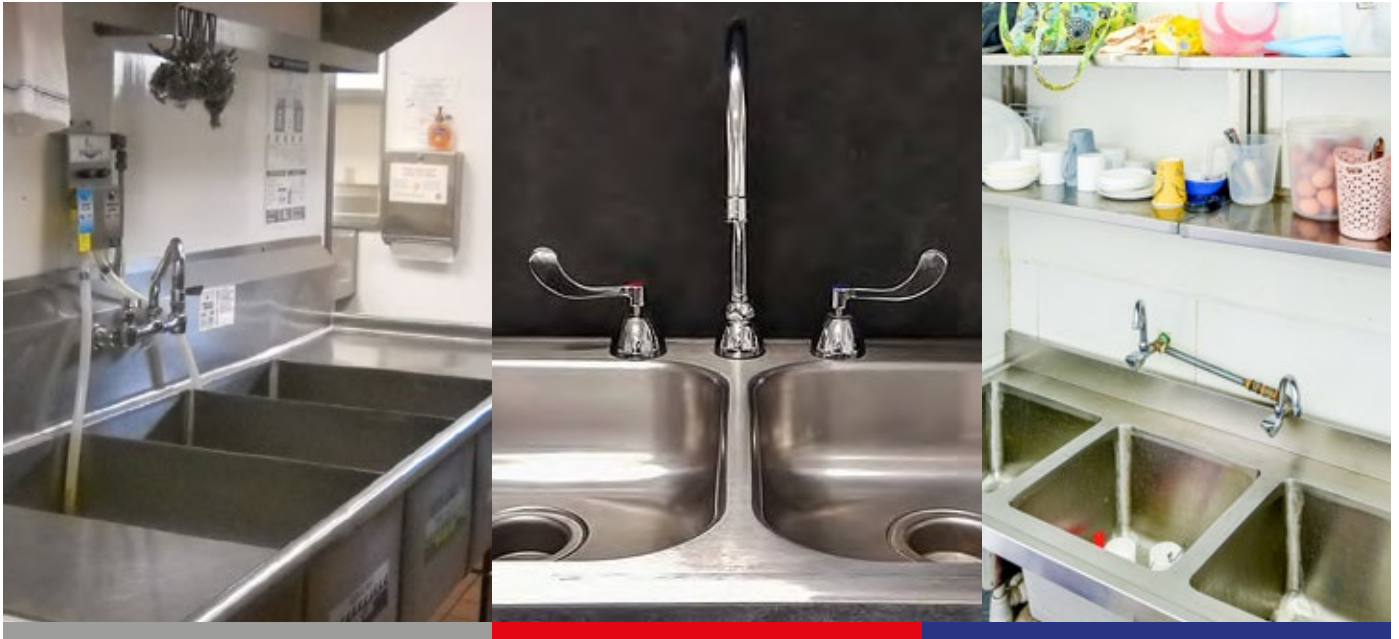

PREP AND SHELVING

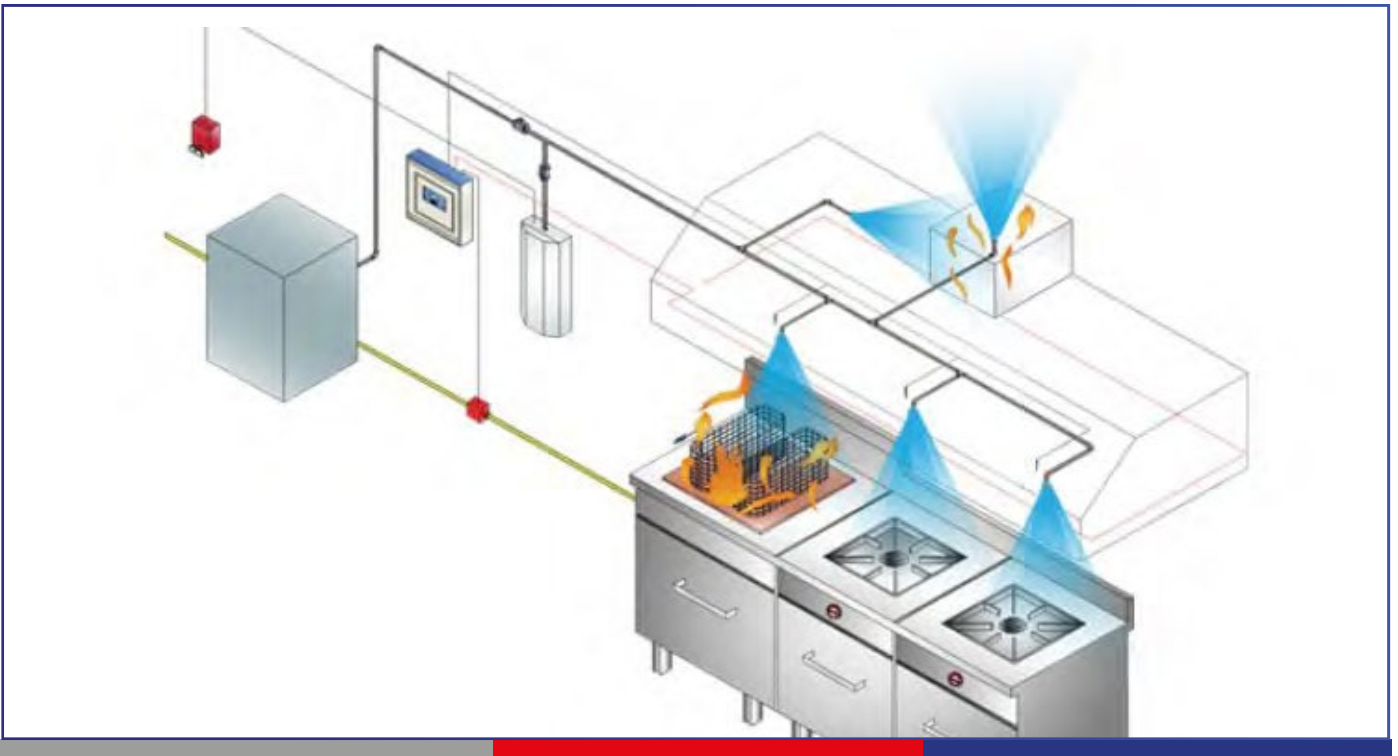

Our bespoke stainless steel equipment ranging from prep tables, cabinets, racks and shelves come in high grade stainless steel welded and polished with high talent and perfection.

WASH UP

Our bespoke stainless steel sinks come with deep and wide bowls. We also supply grease traps that ensures the drainage system remains unclogged at all times.

FIRE SUPPRESSION SYSTEM

Risk of fire hazard proves to be very dangerous in the any commercial kitchen. Fire in kitchen is generally due to burning of oil. With the aim to protect modern kitchens from such risks we have developed SYNERGY KITCHEN FIRE SUPPRESSION SYSTEM. The system is developed according to the NFPA & UL Standards. It can be widely used in the Kitchens of the Hotels, Institutes, Restaurants, and Schools etc.
